Acute Defense™ supports a healthy immune system*

Purity Promise: Free of magnesium stearate and wheat; suitable for vegetarians; no artificial colors and no preservatives.

Acute Defense™ is a targeted immune support formula crafted with powerful botanicals and nutrients. When the body endures challenges the innate immune response can often benefit from the active ingredients contained in Acute Defense™.

Powerhouse Immune Combination
The powerhouse combination of Black Elderberry, Andrographis and Echinacea blended with FoodState Vitamin C and Zinc provides an abundance of nutritional support for the immune system, including Natural Killer Cells.

Black Elderberry, the formula’s primary ingredient, has appeared in a double blind study providing key physiologic benefits¹.

Andrographis Extract has also been shown in a double-blind trial to nutritionally support the immune system. This is thought to be due to the immune system promoting actions of the active constituents known as andrographolides³.

Echinacea has been featured in the largest clinical trial ever conducted on the popular medicinal herb. British researchers have concluded that echinacea extract is both safe and effective in helping to support the immune system².

Vitamin C and Zinc have consistently demonstrated their capability to help support the body’s overall vitality.

Acute Defense™ supports a healthy immune system*

**Black Elderberry**, A placebo-controlled, double blind study published in 1995 found that black elderberry was a key botanical to support a healthy immune system and contributed significantly to overall health and well-being.¹

**Echinacea**, The largest randomized, double-blind, placebo-controlled trial involving echinacea clearly demonstrated the capabilities for this botanical to support a healthy immune response, both during long term use and short term.²

**Andrographis**, A Systematic Review of Safety and Efficacy, published in 2004, found andrographis to provide outstanding botanical support for a healthy immune system.³

---

**Patient Profile**

Nutritional support for:

- Optimal Immune System Integrity
- Healthy Natural Killer Cell Production
- Key physiological benefits for the immune system

---

**Also Consider These Additional Foundational Formulas:**

- C-Complete Powder
- Vitamin C-400
- Immune Response™
