Whole Plant Extracted Live Food
Tested & Assayed for Potency & Purity

Innate Response™ mineral formulas are exclusively crafted from 100% whole food nutrients, and expressly designed to provide the integral trace minerals required for countless physiological functions. The vitamins and minerals in each formula are not in an isolated state, but rather, exist within a biodynamic, whole food concentrate. True Active™ FoodState® concentrates not only deliver essential vitamins and minerals, but numerous other vital constituents as well, that inherently comprise whole food with irreplaceable roles as co-factors in key metabolic functions, and as bio-carriers that govern nutrient delivery to the cells. True Active FoodState nutrients, therefore, have a higher rate of utilization and are also retained longer in the body compared to all other forms of nutrients, particularly pure, isolated forms.

Calcium, Magnesium & Potassium
Calcium, Magnesium & Potassium by Innate, crafted from 100% whole food nutrients, is a superior combination that provides an ideal 2:1 ratio of calcium to magnesium. The 2:1 ratio is the average ratio found in 171 fruits, vegetables and whole grains, as listed in the Nutrition-Almanac. Our Calcium, Magnesium & Potassium is delivered within a blend of nutrient-dense organic whole foods specifically designed to enhance the utilization and nutritional benefits of these minerals. With the synergistic inclusion of a specialized immune blend and plant-sourced enzymes, Calcium, Magnesium & Potassium is crafted to provide the optimal mineral blend.
